Clear Presentation

Accurate

Low Cost

## Accurate Builders Quantities (At a Low Cost)

**Do you have key management, estimating or surveying staff tied up on measurement or estimating when they could prove more valuable elsewhere?**

We have experienced graduate level estimators available who could be assisting you today.

Work can be taken off in whatever layout you require, SMM7, trade, as specified, simple builders' quantities, etc. Bills can be supplied in a range of software formats including Excel, CITE and ConQuest.

*Most sub-contractors said that they'd price more work if they were given more time. A significant number said that a lack of time affected their ability to produce a competitive bid.*

At Trevor Sadd Associates we recognise the importance of understanding your requirements, accurate measurement, speed of turnaround and identifying issues that will affect your rates – so you can expect a high level of service.

**Our approach is based on the blend of experience and research that allows us to offer main contractors demonstrable advantages over most of our competitors.**

For further details of our services please visit our website at [www.trevorsadd.co.uk/maincontract.html](http://www.trevorsadd.co.uk/maincontract.html) We can usually give you a good indication of fee levels over the phone and a fixed fee quote within 24 hours.

For almost 20 years Trevor Sadd Associates have provided a range of services and support working on a national basis for hundreds of contractors, from preparing Bills of Quantities through to a fully analysed estimate including the preparation, packaging, adjudicating and incorporation of sub-contractor quotations
